STRUCK BY LIGHTNING.—C. D. Upchurch Esq., Deputy Collector Internal Revenue, of this city, was knocked from his buggy a few days since in Nash county by lightning and received painful tempory injury from both the shock and fall. The lightning struck a tree near him; his horse was knocked down, the buggy upset and broken, throwing him underneath in which he received the injuries.

The horse soon recovered, the buggy was patched up and the collector was soon on his way, rejoicing that he escaped so well.

APPOINTED.—Chas. Dewey Jr., of Goldsboro, has been appointed a Notary Public for the county of Wayne Mr. Dewey is a grand son of the venerable and highly esteemed Chas. Dewey, of this esty.

THE OLD NORTH STATE—WHAT A NORTHERN REPUBLICAN SAYS OF HER.—The following letter we find in the Binghamton, New York, *Standard*, written by Profl. Fairchild, at present temporarily sojourning in this city. Proff. Fairchild resided for several months in Warren county, and for one or two months in this city, during which time he has travelled in several sections of the State. He is a Northern republican and though differing with us in politics (as North Carolina is at least 15,000 democratic majority) yet he speaks plainly his honest and plain convictions, of the advantages North Carolina present to Northern immigrants.

RALEIGH, N. C., June 1, 1872.

Editor Republican:

When I left home in January, I promised several of my friends that I would write an occasional letter for your paper, telling how I was getting along, and giving my impressions of this, the Old North State.

Up to the present time, I have not been able to undertake the task; but thanks to this delightful climate, my health has so much improved that I hope to fulfill my promise during the three months that I remain here, before I am able to set my face homeward and return to my home in Binghamton. I am very much pleased with the climate of North Carolina, situated as it is between the Northern and Southern States. We escape the paralizing cold of the northern winters, and the extreme heat of the Southern States. The northern people who have been here a number of seasons, say that it is never as warm here as it is often at the North, and I learn also from Professor Kerr, State Geologist, that the average temperature during the summer months is never as high as in New York. We have already had more perfect days during the months of April and May than we usually have during the whole season at home. Cases of sun-stroke are never known here.

I must say that the great natural advantages of this beautiful State have made me captive, and that the future greatness of North Carolina is beyond the power of the most gifted pen to depict.

This country is of great natural beauty, unlimited resorces, rich in sunshine, fruits, flowers, cotton, corn, tobacco, cattle, minerals, and great water, with splendid central points for manufacturing purposes. No country can be found on this broad earth, to furnish a more delightful home than this, which for fertility of soil, serenity and heathfulness of crimate and variety of products is unsurpased.

I shall certainly come here to live if I get my health, (D. V.)

I think no Southern State in the character of its people, the variety of its soil and products, is so little understood at the North as this.

The geography tells us that "this State is noted for its products of pitch, tar and turpentine." And we get the impression that only the gloomy forests of pine, and the dismal swamps meet the eye of the traveller. This is not the case, through the northern half of the State, nor from this point west, not a pitch forest is to be found. But the land is devoted to the products I have mentioned above.

The system of farming practiced by this people has done much to give us an unfair opinion of the strength of the soil. They never seed their lands with grasses, nor rotate thair crops, but run the same field year after year, until it is worn out, and then abandon it to be burnt up by the sun, or the soil to be washed away by the heavy rains. So, instead of the green fields which we see at the north, even in the poorest sections, here only the barren sand hill meets the eye, or the abandoned fields covered with scrub oak or smal pines. Northern people must come here and revolutionize this system of farming.—Come and raise grain and stock Treat your land just as you do at the North, put back a part of what you take off, and this land will produce four times as much as our farm lands in York State.

I visited a plantation a few weeks since, and observing a fine patch of clover in one corner of a large field, I remarked to the owner that it would be a fine thing to have his whole farm seeded in that way. "Why," he replied, "I have been fighting that patch of clover for the past twenty years. It is the pest of my life. It got seeded there from some Northern hay that I bought, and I cannot destroy it." It was vain to try to convince him that such a coat of clover turned in all over his farm would be worth ten times the value of the commercial fertilizers he was using to produce an ordinary crop. So he will live and die in the constant dread that that clover may yet spread over his farm and render it worthless for his children to cultivate.

There are great inducements for Northern settlers to come here. Only think of this State, with over fifty thousand square miles, larger by several thousand miles than the state of New York, with a population of only 1,071,361, while you have 4,384.758, or more than four times as many. These people are willing and anxious for us to come here and settle. They are very cordial.

The bitter feelings of the war are vanishing, and there is no more difference than between the parties of different political faith at the North. So much in a general way. Another time I will write more of politics, colored people, schools, etc.

DISAPPOINTED AGAIN.—A few days since we referred to the fact that the painters engaged in the work on Tucker's front were letting themselves down its side ropes confined at the top of the building. We reasonably expected and so stated to our readers, with the prospect, that a first class local would be the result, but we were doomed to disappointment. Saturday the workmen reached the ground without having made even as much as a slip, and moreover "doing up" the job with much taste and artistic skill. Mr. Henry Hardie, the boss of the job, is an excellent workman, as all will agree after seeing the new front of the handsome building.

WAKE FOREST COMMENCEMENT—CLOSING EXERCISES.—On our return from Wake Forest Friday evening, we found the subjoined communication from a correspondent who participated in the festivities, which we accept as an improvement on ours, and will give way for it:

On Thursday the Chapel was again filled to listen to the speeches of the graduating class. The two Societies, after having formed their ranks, marched around the circled mall in front of the College, and having received the Faculty, Trustees, and members of the graduating class, were conducted into the Hall by the Marshals. The audience was refreshed after each oration with sweet interludes of music by the Band, which never came too soon, nor lasted too long. The orations being over, the Baccalaureate address was delivered by Dr. Wingate, who charmed every one by the music of his eloquence, and the beauty, harmony, and perspicuity of his composition. Then this touching scene having passed, *actum fuit de initio*. The afternoon was spent about as the previous, only the anticipations were more buoyant, and hope rode high on the gilded wings of the imagination as the grand sociable of the night drew near. Before "the black bat night" was come, while the crepuscular rays still lingered about the horizon, and the stars were singing their welcome to the ebon queen, groups of two and two, or as many as you please, from the beardless youth and guileless maid to the almond blossom sire and his faithful spouse, all ages, ranks and sizes, could be seen wending their way through the sinuous walks and drinking in the sweet music that made the welkin ring as they

"Went to the party place of social mirth,
And innocence in all her youthful bloom."

So sweetly ran the moments then, and sweeter still they went, when bashful lovers armed the girls they wished, and some yet untouched by cupid's dart, and veterans old and scared in love's romance, and those who long ago hugged hymen's chain with an hymeneal harvest now around, almost became one promenading throng entire, while the ecstatic music that waked the sacred fire of the soul, heightening every noble ambition and drowning every discordant voice, harmonized tae whole into one spontaneous rivalry of pleasure.—But about 1 o'clock, A. M., the scene was changed from joyful intercourse to tearful partings, as the neighing of the steam horse announced the advent of another day. Then the band struck up that ever soul-stiring air, "Dixie," rendered doubly sublime as its melodious tones were wafted on the midnight breezes alike to the tapestried halls of the rich, and the simple cottages of the poor, and if any one left Wake Forest that night with an evil spirit, he must have possessed a stonier heart than the wicked Saul, from whom, under the mystic influence of music, the evil spirits took their flight. Some take passage for "Sweet Home," and some for the blissful shades of dreamland. And thus ended a session long to be remembered for its many endearing pleasures and precious reminiscences. But the tender sympathies of nature yield to the surrounding influences, for

"Grief is alleviated with a flow
Of secret, silent, unaffected tears.
I'll not restrain whilst I have a heart,
Or the recollection of th' imprinted past.
Then roll ye tears, not in lament, but for
The discontinuance of these sweet days."

ITEMS FROM OXFORD.—Our correspondent under yesterday's date sends the following.

High Prices.—Mr. Thomas R. Averett, who is a very successful cultivator of tabacco, has just returned from Richmond. He obtained as high as seventy dollars per hundred pounds for a part of his crop. His average price was thirty-nine dollars and seventy-five cents. But for the decline in the price of tobacco, incident to the change in the tax law, Mr. Averett would no doubt have done even better than he did.

The Goodwyn Agricultural Club.—This Club is composed of some of the most enterprising and intelligent farmers in the State. They met at the residence of R. O. Gregory on Saturday the 29th of June. The Club has under consideration the ways and means of getting a Rail Road through Granville. They seem to be in earnest about it, and have appointed a Committee to confer with parties in Richmond on the subject.

We have been shown a letter from a leading commission house in Richmond to Maj. N. A Gregory in which the following language is used, viz:

"You have this Rail Road in your power and all that is necessary is *action*. Reach out your arms for it and you will get it."

Keysville Convention.—We are also also credibly informed that Col. Buford says that the Road from Keysville to Clarksville Va., will be purchased and "completed in fifteen months." The indications for getting a Rail Road to Oxford at no distant day are encouraging.

ONE LOT OF BLACKBERRIES WE DID NOT GET.—While *en route* from Wake Forest Friday last, a considerate friend of ours, one of the most distinguished D. D.'s of North Carolina, by the way, went out from the cars while standing at a wood pile to pick blackberries for us, his object being to get up a laugh at our expense. He wandered "a little too far," the train blew off breaks and was in motion in an instant, and the undignified foot race of the dignified D. D. with his school boy slide down the hill, resulted in the loss of our blackberries and the laugh at his own expense.

THE NEW TEMPERANCE MOVEMENT. The *Banner of Temperance* says:

A Temperance convention will be held in this city on Thursday the 8th day of August, for the purpose of organizing a new temperance order in the State. Many of the best and most prominent citizens of the State are at the head of this new movement.

The convention will meet at the State capital.

OUR CHURCHES TO-DAY.—Divine services will be held at the following Churches to-day, (Sunday.) Strangers and others in the city are earnestly and cordially invited to attend. Gentlemanly ushers will be present to conduct visitors to pews which are always free.

Edenton Street Methodist Church, Edenton street, Rev. A. W. Mangum, officiating. Services at 11 o'clock A. M. and 7½ o'clock P. M.

Baptist Church, corner Salisbury and Edenton streets, Rev. T. H. Pritchard D. D., officiating. Services at 11 o'clock A.M. and 8 o'clock P. M.

Christ's (Episcopal) Church, Wilmington street, Rev. R. S. Mason, D. D., officiating, services at 11 o'clock A. M. and 3 o'clock P. M.

Presbyterian Church, corner Salisbury and Morgan streets. Rev. T. C. Atkinson, D. D. officiating. Services at 11 o'clock A. M. and 7½ o'clock P. M.

Person Street Methodist Church, Person street, Rev. Mr. Raven officiating. Services at 11 o'clock A. M. and 7½ o'clock P. M.

St. John's (Catholic) Church, corner Morgan & Wilmington streets. Rev. J. P. McNamara, priest, officiating. High mass at 11 o'clock. Vespers at 3 o'clock P. M.

SUPREME COURT.—This body met at 9 o'clock Tuesday morning. All the Justices present.

The consideration of cases from the 9th district was resumed.

E. Nye Hutchison, *et al*, vs. B. B. Roberts, from Mecklenburg; argued. W. P. Bynum, and W. H. Bailey for plaintiffs, Blackmer and McCorkle and J. H. Wilson for defendants.

Bank of Charlotte vs. M. N. Hurt, *et al.*, from Mecklenburg; argued. J. H. Wilson for plaintiff, Jones & Johnson for defendant.

Burt Johnson vs. Commissioners of Cleaveland, from Mecklenburg; argued. Jones & Johnson for plaintiff, and W. P. Bynum for the defendants.

Burrough & Spring vs. N. C. R. R. Company, from Mecklenburg; argued. Jones & Johnson for plaintiff, R. Barringer and J. H. Wilson for defendants.

A number of other cases were transfered to the end of docket.

AN EXTRAORDINARY CHICKEN.—One of the strangest freaks of nature yet reported comes to us through a Warren county correspondent. A hen that has raised one brood of chickens, becoming disgusted with the cares, troubles and anxieties experienced by her sex, voluntarily takes upon herself the habits and duties of a rooster. She crows, struts fights and acts as one. Her comb and spurs have grown out, and it is said by one of the most reliable men in the county who owns the hen, that a regular transformation is taking place.

COTTON BLOOM.—We have been shown a cotton bloom plucked from the field of Gen. W. R. Cox, in Edgecombe, on the 25th inst. We are pleased to learn that the cotton crop generally, in this county, is not only unusually good but well advanced.

A NORTH CAROLINIAN.—Among the names of the graduates in the schools of Greek and Latin at the late commencement at Randolph Macon College, Va., we notice that R. O. Burton, Jr., of Halifax county, this State, graduated with distinction.

ANNOUNCEMENT EXTRAORDINARY.—To blackberry pickers, hucksters and peddlers, we are fully prepared to say this morning that we shall want no more berries this season. Thanking you for your close attention and your readiness to serve us at all hours, we respectfully bid you an affectionate farewell.

A GOOD IDEA.—Messrs. C. D. Heartt & Co., have neatly fitted up the rear room of their extensive Boot and Shoe Store especially for ladies "fitting" room, an arrangement rendered necessary by increasing trade.

DELAYED.—We learn that owing to the mechanic's strike in New York, the new hook and ladder truck ordered for our city will not be completed in three or four months.

RALEIGH, N. C., March, 1872

Mr. Stillman, Agent of "The Howe Sewing Machine:

We have had your Machine in use in our family for four months, and can safely recommend it to the public for its simplicity, beauty as a piece of furniture, and as a "help" to those of us with large families, it is a "sine qua non." We have made with it, in addition to the usual household work, over one hundred garments, large and small, including Pants, Coats, Dresses, &c., some of which were heavily trimmed, two of the dresses containing from 100 to 125 yards of tucking. It is worked with much ease, requiring but little exertion. We would not be without one for three times its cost. Yours &c.

A committee from the Peace Jubilee at Boston arrived here to-day to wait upon Horace Greeley and extend him an invitation from the International Executive Committee and the City of Boston to visit that city. The committee have received assurance from Mr. Greeley that he will accept the invitation, and he will designate, this evening, an early day next week for his visit.

The stock and gold exchange will adjourn over for the 4th of July only.

William A. Jones has been appointed deputy naval officer in place of Maj. James, Haggerty, resigned. Haggerty declares for Greeley.

Four strikers who assaulted the work men who would not strike to day, got ten days each in the city prison. Nothing especially new in reference to the strikers. The stablemen still hold out this A. M. The eight hour league distributed about $3,000 relief money; many men have been impoverished over six weeks and have received nothing. A number of cabinet makers are expected to go back to the ten hours system next week. Many of the furniture makers finding it cheaper to get their goods in other cities; some are buying in Boston.

Apprehended Indian War.

ST. LOUIS, June 29.

The Denver *Tribune*, of a late date, says editorially that various correspondents of that paper in Southern Colorado and New Mexico, state that extensive and combined depredations are seriously apprehended in the sparsely settled parts of this Territory. The Kiowas, Arrapahoes, Cheyennes, Commanches, Navajoes and Apaches have held frequent councils during the past winter, at which it was endeavored to dissipate all tribal prejudices and effect a combination for a general Indian war. Recent murders and robberies in New Mexico, Arizona, and other places are referred to as evidence of the intentions of the Indians, but whether a complete combination has been effected is not known. The *Tribune* further states that a letter from a prominent United States officer, dated Fort Sill, June 12, says the warriors of the Apaches, Cheyennes and Arrapahoes are organizing ostensibly for an attack on the Utes, of Colorado, but the writer thinks that a raid on the frontier is really their object, and he says the government authorities there are doing all they can to break up the movement.

Washington Affairs.

WASHINGTON, June 29.

The Secretary of War departs to-night for Wisconsin.

The receipts from internal revenue to-day were $643,183.01, making the total amount for the month $13,089,091.64, and the total for the fiscal year ending to day $131,607,214 15, over six millions in excess of the estimate.

Candidate for Governor.

ATLANTA, June 29.

Major John H. James announces himself as a candidate for Governor of Georgia.

The Boston Jubilee.

BOSTON, June 29.

Mr. Gilmore's benefit this evening was a complete ovation, more people attending than at any time during the festival, all popular element included. The "Anvil Chorus" was on the programme. Gilmore's own band of fifty pieces played "Stradell a Overture," and the former popular pieces were dropped out of them, which received the loudest of applause Peschka, Scattest, Conductor Oang Arbecle gave a correct solo, and the foreign bands were, as usual, encored. Gilmore was presented with a floral harp, and Baldwin, superintendent of the orchestra, with a floral watch by the members of other cities. Forty members of the Southern press association were present, and were complimented with "Dixie" by Gilmore's band. The jubilee is likely to continue until next Saturday.

Weather Report.

HEAD QUARTERS OF THE NORTH CAROLINA DELEGATES.

Hon. D. M. Barringer, Chairman of the State Executive Committee, has secured accommodations at the "Carrolton House," for the North Carolina Delegates to the National Democratic Convention, which meets in Baltimore on the 9th of July.

WHERE IS HESTER?

Dr. Bratton, who was kidnapped by Joseph G. Hester, of this city, has, upon the demand of the British Government, been sent back to Canada, and restored to his liberty.

But where is Hester? It is understood that he has been demanded, in order that he may be punished for violating the laws of England. He knocked down and chloroformed Bratton. This was a very grave offence. Is he to go unwhipped of justice?

It is said the British Government has demanded that he be deliyered up for trial and punishment.

What has become of him? Has he made his escape?

The question recurs: Where *is* Hester?

GOV. CALDWELL AND THE MILITIA LAW.

Our editorial yesterday on the subject of the POWERLESS GOVERNOR demonstrated beyond a doubt that the Governor has full power under the Constitution and the laws to call out, arm and equip the Militia, and they are paid now exactly as they were before the war.

Governor Caldwell says the Democratic party has repealed the effective clauses of the Militia law, and therefore he has no power left to call them out to put down the Robeson outlaws.

This is utterly untrue. Governor Caldwell has more power in this matter than any of his predecessors had under the old Constitution.

The Democratic Legislature has not repealed any of the old Militia law, as provided in Chapter 70, of the Revised Code.

The Governor has power under the present Constitution to call out the Militia to execute the law.

Their pay is provided for by an Act passed in March 1870, which is unrepealed—but stands in full force to day.

THE PUBLIC PRINTING.

We have received several applications from persons in different parts of the State, asking us for a copy of the minority report on the Public Printing.

It will be seen that this report is signed by three Republicans, Messrs. Hawkins and Justice and no charge of fraud and corruption is alleged against our candidates.

We publish this report to the exclusion of original matter, as it silences the Radical battery that there has been any *stealing* done by the Public Printer. The words "over-drawing," which the Radicals say the Democrats use as another name for stealing, is used by the Radical members of the Committee themselves.

The State of North Carolina has not lost one cent by the "over drawing."

No man can truthfully charge the Democratic Legislature with corruptly appropriating one dollar of the public money.

THE REASON.

The Charlotte *Democrat* wishes to know why it is that no Presidential Elector has been nominated in the Fifth Congressional District.

Because the District Convention which nominated the candidate for Congress and appointed Delegates to Baltimore thought best to postpone the nomination of Elector till after the adjournment of the Baltimore Convention.

The State Executive Committee resolved upon the same course in the appointment of Electors for the State at large.

MAJ. JESSE J. YEATES.

Our neighbor, the *Sentinel*, is in error in saying that Maj. John J. Yeates, of Hertford, has been nominated in the first Senatorial District, in place of Dr. Rufus K Speed, whose ill health has compelled him to decline the nomination lately tendered.

The nominee is Maj JESSE J. YEATES, one of the clearest thinkers and most popular gentlemen in the State.

Maj. Yeates will take a distinguished stand in the next Senate of North Carolina.

MINORITY REPORT

Of the Joint Committee of the Legislature to investigate the accounts of the State Printer.

We, the undersigned, a minority of the Committee appointed to examine into the alledged over-charges of the State Printer, are constrained to differ from the majority of the said Committee in their report which declares that said State Printer has not violated the terms of his contract, and has not overcharged the State for printing done by him. We are of opinion that he has done so, both in spirit and letter, as the evidence of almost every witness, who appeared before the Committee, proves.

As an introduction to our report, in order that the subject matter may be the more properly understood, permit us to review some of the previous legislation in regard to printing, and to state the prices which the State has hitherto paid for the same.

Long prior to the war, when the matter of the public printing had begun to assume an important amount of costs, a carefully considered law was enacted (said to have been drawn up by Mr. Thos. J. Lemay, a printer of large experience, and well known to the people of this State in a generation gone by which described with much precision, the manner in which the same should be done.) [See Revised Code, chap. 93.] This law fixed the price which should be paid the State Printer at 62½ cents per 1,000 "ems," for the book printing of the State, and the size of pages then established has not been materially altered, nor the size of type changed to any perceivable extent, since that time.

Under that law, which was unaltered up to the breaking out of the war, the public Printer received 81¼ cents per page for the type setting for the jouanal, document and bill pages, common reading matter; and double that price for rule and figure work. For the laws, which are side-noted, 90 cents per page was paid.

During the war, the rate per 1,000 "ems," as per Revised Code, was repealed and an act passed authorizing the Comptroller to call to his assistance a practical printer, and pay such sum for the public printing as might be found just and proper. This was deemed necessary owing to the rapid depreciation of Confederate currency.

After the war, Cannon & Holden were allowed $1.00 per 1000 ems, and with pages of the same size and in the same sized type, received $1.42 for pages of common printing not side-noted, and double that price for rule and figure work. For the laws they received $2.20 per page.

Wm. E. Pell succeeded the above as Public Printer and at the same price per 1,000 ems, ($1) was paid $1.50 per page for the journals, documents and bills, and $2.20 per page for the-side noted laws.

M. S. Littlefield succeeded Mr. Pell, and was paid $1.00 per 1000 ems, and received, as Public Printer, $2 32 per page for the Journals, documents and bills; and $2.00 per page for the side-noted laws.

Nichols & Gorman, for a short while after the abolishment of the office of State Printer by the Legislature of 1869-'70, contracted with a legislative committee to do the State Printing, and received therefor 75 cents per 1000 ems; or 99 cents per page for bills which they printed. They printed no laws or journals under that contract.

The same Legislature at the same session re-enacted the law creating the office of State Printer and elected Jos. W. Holden to fill the office, and he was allowed 75 cents per 1000 ems for type setting, and was paid at the same rate per page for the journals, bills and documents as per Committee's contract with Nichols & Gorman, to-wit 99 cents; and received $1.21 cents for the side noted laws.

At the last session of the legislature the act previously mentioned, was again abolished, and a legislative committee instructed to contract for the State Printing, and allow the contractor a "reasonable compensation" for the same. It had been charged, and not without reason, that the State had previously paid too high a rate for printing; the Conservatives and Democrats had used the slogan of "retrenchment," during the campaign of the summer previous, and had used this very question of high prices for printing against the Republican party, from the stump, in every section of the State; and this legislature upon assembling prided itself upon being called especially to reduce the current expenses of the State, and institute a new era of economy and reform. It was with this view that the Legislative Committee of last Session were instructed to contract with the State Printer at a "reasonable" rate of compensation. They gave the contract to Jas. H. Moore, who was then connected with *the Sentinel* establishment, and Mr. Moore testifies that he made it *in the interest of Mr. Turner, of the Sentinel.* By the terms of that contract the Printer was allowed "*for all plain work, seventy five cents per thousand ems; for all rule and figure work one dollar and fifty cents per thousand ems,* &c., which is identically the language employed in the act "in relation to the State Printing" under which Jos. W. Holden was elected, (see laws of 1869-'70, chap. 120, p. 164,) and for which Holden received for journals, documents and bills, the sum of 99 cents per page for common work, and double that price for rule and figure work.

Notwithstanding the terms of Mr. Moore's contract and the law above cited are identical in regard to price, and the technical "em" mode of computation, the evidence which has been elicited before this Committee from numerous witnesses, proves that the agent of Mr. Turner has received the sum of *one dollar and forty cents* per page for the journal, bills and documents, common matter; and *two dollars and ninety two cents* per page for rule and figure work. For side-noted law pages he has received one dollar and ninety five cents per page. In other words, at the same rate for the same sized pages, he has received *forty seven cents* more per journal page than Holden received; *fourteen cents* per page more than Littlefield charged when he received one dollar per 1,000 ems; *forty seven cents* more than Nichols & Gorman received, at the same price at which the present contractor agreed to do the work. It was to investigate these "charges of a serious nature" which induced the appointment of this committee and the evidence adduced confirms it. Evidently there is a screw loose somewhere about the printing machine.

We would here incidently state that the differences in the price for press work we have not noted, as it is not charged nor intimated that any overcharge has been made for that species of work. And, we will also state that the above statement of rates charged is for the type-setting of the pages alone.

Previous to the appointment of this committee the Fraud Commission appointed at the last session of the Legisature, it seems, had begun an investigation into these alleged over charges, and had summoned several witnesses before it. The commission abandoned the investigation upon the appointment of this committee, and the evidence it elicited was turned over to us. Mr. Moore, the agent of Mr. Turner, testified before that committee, and before us re affirmed it. In his testimony he affirms, as a reason for the wide difference between his charges and those of the previous State Printer, at the same price, is owing to the technical difference in the manner of measurement, and that he was so authorized to compute by the legislative committee with whom he contracted. That by a verbal agreement with them, the letter *m* was established as the standard computation, instead of the em quadrat, which had been previously used, and that he counted his thousand letter *m's* the *narrow* way, both across the page as well as from top to bottom of the page. From his testimony it seems that two contracts were made before the papers were finally signed. That the first contract for type-setting fixed the rate of 87½ cents per thousand ems, and up to that time no mention was made by him as to a different mode of computation other than that previously used; this contract, however, was unsatisfactory to a portion of this committee, and another consultation had. Mr. Moore states that Mr. Mauney in particular complained that this rate was too high, and that "they could not sustain themselves before the the tax payers of the State if they paid the prices agreed on, *i. e.* 87½ cents. At the second meeting of the committee to fix the rates of the contract, Mr. Moore testifies that when a reduction was "urged," he finally proposed to do the type setting at 75 cents per 1,000 ems, if the committee would allow him to compute per 1,000 "by the space which a thousand letter *m's* would occupy," and that the committee acceded to the proposition.

Even by Mr. Moore's testimony it is evident that he has violated his own agreement. He does not charge per 1,000, "by the space which a thousand letter *m's* would occupy." Instead thereof, as a calculation proves, he computes his thousand *m's* by their narrow width both ways, across and up and down the page. (We would here state that the samples of type exhibited to the Committee show that the small pica letter *m* used in public printing is in measurement, as exhibited on a printed page, considerably deeper from top to the bottom of the letter, than in its width, and hence in thousands of pages, materially alters the figures and cost of work, computed as the State Printer has done by the letter's narrow side, and then by the space which a thousand m's would occupy on a page.)

But the members of the Committee who contracted with the agent of Mr. Turner, do not agree with Mr. Moore in his statement in regard to the agreement. It will be seen by reference to the testimony, that Mr. Broadfoot, the first member of the Committee examined by us, states that he "insisted" at this second interview alluded to by Mr. Moore, "that everything should be fairly done in good faith," and that the mode of computation finally agreed upon by the parties to the contract was "the mode most favorable to the State." Does any one believe that the mode adopted by the State Printer is the one "most favorable to the State," when he receives fourteen cents per page more for *his* work at seventy-five cents than Littlefield received while charging $1 per thousand ems, and *forty-seven* cents per page more than Jos. W. Holden, the former Public Printer received at the same price this contractor agreed to charge?

Mr. Jordan testifies that Mr. Moore confused him with his explanations as to the "English" mode of measurement, the "American" mode, the "lineal measurement" and the "book measure." He says the committee bound the contractor to charge only by the "lineal measurement," but did not incorporate that feature in the contract. We have enquired of sundry printers to find out what manner of measurement is meant by lineal, but must confess that none have been able to enlighten us farther than to say it is measurement by the line. Has the contractor measured by the line? Other witnesses testify that he has charged for "blank pages and parts of blank pages;" and hence, if he measured by "the line," numerous lines which do not appear on the face of the pages printed, have been charged for. Mr. Jordan testifies that after making the first contract at 87½ cents per thousand, when the question of "ems" had not been mooted, and therefore it was the intention of the printer to compute as others had before him. Mr. Moore appeared before them the second time, when the contract was altered and the prices "reduced." According to the charges made, was there any reduction? Instead of a reduction, by the agreement, the Public Printer added 36½ per cent, to the prices. Mr. Jordan's testimony ends with the statement that "if there is a difference between the two modes of counting (the letter m, and the quad lateral em) it was not made known to the committee.

Mr. Crowell states, Mr. Moore offered to take the contract at the Committee's lowest figures "if it would let him count the most expensive way. This proposition was refused," and he states that his final understanding was that he (Mr. Moore) took the contract at the lower price, and Mr. Moore said it would be a hard bargain." Hard bargain, indeed. What, charge the State 47 cents more than the previous State Printer charged, and then call it a "hard bargain" for himself. Surely he then intended to abide by the contract in good faith, else no such sentiment would have been uttered.

Again, Mr. Waring states that the first contract (at 87½ cents) was modified. That it was modified at the suggestion of Mr. Mauney, who complained that 87½ cents was too much. Mr. Waring does not remember anything about "rule and lineal measurement," but he affirms that he declared before the Committee "that he would sign no contract which purported to be at one price and count by a measure entirely different; that he wanted the contract to express exactly what it was," and "insisted upon what was called a fair and square count." Is measuring by the narrow letter m, contrary to the usage of printing offices, all over the United States, contrary to the standard adopted and used by the International Union, "a fair and square count."

Mr. Waring further states that "it was agreed that the same mode of counting was to be adopted by the contractor as that by which he paid his hands." Mr. Marcom, the foreman of the "Sentinel" book office, testifies that the employers are paid by the "em quadrat," or the mode adopted all over the United States. Mr. Waring emphatically states it was his understanding "the mode most favorable to the State" was to be adopted, and asserts, in unmistakable language, that on the final agreement "there was no difference in the mode of counting, but only a reduction in price. He also affirms that the original written contract than be ore him was the "exact" one made by the Committee, and that it was not to be modified afterwards, to his knowledge, or, by his consent. Mr. Waring's signature is appended to the contract.

Again, Mr. Mauney, the Chairman of the Committee, testifies to the making of the first contract, but that he did not consent to it, and that it was at his suggestion that the second meeting was had, for the purpose of reducing the price to be paid. Mr. Mauney states that the contractor proposed to count by the letter *m*, at a reduced rate, but that Mr. Waring dissented from the proposition in which the whole committee joined: and that "then" he, the Chairman, "proposed the written contract as signed, and Mr. Moore accepted it, said "it was a mighty hard bargain." Mr. Mauney also testifies that it was understood by the parties to the contract "that the count was to be the most favorable to the State," and was never afterwards modified to his knowledge or by his consent.

We presume it is not necessary further to quote the testimony. It all goes to prove that no other mode of measurement than the *most favorable* to the State was agreed upon, and the evidence of other witnesses versed in the technical language of the printing office declare unequivocally that the word "em" used in the contract is understood to mean only one thing—the square of the type used. Mr. Moore admits that this method was not used, but another which largely increased the cost to the State.

We have therefore felt compelled to dissent from the opinion of the majority of the committee, and respectfully report, in compliance with the order of the resolutions which created the committee.

1st. That the legislative committee of the last session contracted with the State Printer as follows: For all plain work at 75 cents per 1,000 ems; for all rule and figure work, $1,50 cents per 1,000 ems, and for all press work at 75 cents per token of 240 impressions; and that the technical ems used in the contract means the same as that by which the printers all over the country are paid when working by the 1,000—i. e. the em quadrat.

2nd. The evidence proves that the contract as made by the legislative committee of last session has been violated.

3d. That the Public Printer has overdrawn for the work admitted.

4th. That Mr. Moore, the contractor, is immediately responsible theretor; but that Mr. Turner, of the *Sentinel* is the party who has been benefited by the overcharge.

Respectfully submitted,
J. M. JUSTICE,
PHIL. B. HAWKINS.

TESTIMONIALS.

WAKE FOREST COLLEGE, N. C., April 8th, 1872.

MR. JAS. PIRSSON:

SIR:—The Piano which I purchased from you in September, 1870, is a very superior one. It has been frequently tested by competent judges, all of whom give unequivocal testimony to its excellence. I could not ask for a better instrument.

Very Respectfully,
W. G. SIMMONS.

RALEIGH, March 17, 1871.

MR. JAMES PIRSSON—Dear Sir: It affords me great pleasure to speak of the real merits and excellence of your Pianos—Great Union Piano Co. I have used one of your instruments in my music room ever since last August, 1871, and candor compels me to say that I do not know of another make which I should prefer to your Piano. The instrument keeps remarkably well in tune, and not a string has been broken. Hoping that the demand for your Pianos will never cease,

I am yours most respectfully,

NOTICE.

Whereas, the Commissioners of Moore County have, by order of said board, proposed to subscribe for fifty thousand dollars of the capital stock of the "Raleigh & Augusta Air-Line Railroad Company," and issue coupon bonds to the same amount, on said County, for payment thereof, said bonds to be made payable twenty years after date, and bearing interest at the rate of eight per cent. per annum, under the provisions of the following Act of the General Assembly, ratified 16th of April, 1869:

An Act to enable the Chatham Railroad Company to complete its Road.

SECTION 1. The General Assembly of North Carolina do enact, That for the purpose of supplying funds to enable the Chatham Railroad company to complete and equip its road, the said company shall have power to borrow money by the issue of bonds or other evidences of debt, authenticated in such manner as the President and Directors of said Company may deem best, in sums not less than five hundred dollars, at a rate of interest not exceeding eight per cent. principal and interest payable at such time and place as said President and Directors may select, the bonds so issued not to exceed two millions of dollars.

SEC. 2. To secure the payment of these bonds and other evidences of debt issued as aforesaid, and the interest thereon, the said Chatham Railroad Company may execute and deliver mortgage deeds or deeds in trust, signed by the President and countersigned by the Secretary of said Company, conveying the franchise and property, including its road-bed, superstructure, choses in action, and real and personal estate of whatever kind, to the holder of said bonds, or to such parties as said President and Directors may select in trust for them, and the deeds so executed and registered in the County of Wake shall have priority over any lien or other claim held by this State on the subject matter so conveyed, it being the intent and meaning of this Act, that the State shall be in a position and have the rights of a second mortgagee, subordinate to the liens created by the mortgage or trust deeds aforesaid. That before the said Chatham Railroad Company shall make or sell any portion of the first mortgage bonds, authorized by sections one and two of this Act, they shall deliver to the Public Treasurer a second mortgage upon all their estate, both real and personal, which they may now have, or may hereafter acquire, between the city of Raleigh and the terminus of said Railroad, to the South Carolina line, at or near Cheraw, S. C., said second mortgage bonds to be in all other respects the same as the first mortgage bonds now held by the State, bearing the same interest and payable in the same manner. And the President of the said Chatham Railroad Company shall also deposit with the Public Treasurer the sum of one hundred and forty-four thousand dollars of first mortgage bonds to be applied to the payment of the interest on the second mortgage bonds.

SEC. 3. Any county along the line of the said Chatham Railroad may subscribe to the capital stock of the company to such an amount as the majority of the Commissioners of said county may determine, subject to the approval of a majority of the qualified voters of the county. And said Commissioners, in order to pay the said subscription, shall have power to issue bonds, or other evidences of debt, at a rate of interest not to exceed eight per cent. per annum, said bonds to be issued in such manner and form and payable at such time and place, and authenticated in such manner as they may determine.

SEC. 4. In order to pay the principal and interest of the bonds issued as aforesaid, the Commissioners of the county subscribing as above mentioned, shall levy and collect annually, in such manner as is directed by law in case of taxes for other county purposes, a tax sufficient to pay the annual interest, and they may levy and collect a further tax to be used in extinguishment of the principal, or else to be invested as a sinking fund for the ultimate redemption of the principal.

SEC. 5. No subscription shall be made by the Commissioners of any county, as above mentioned, until the question of approval or disapproval of such subscription, the issue of bonds or other evidences of debt, and the authority to levy taxes to pay the interest and provide for payment of the principal of the bonds shall be submitted to the qualified voters of the county, and shall be approved by a majority of those voting. The election shall be held at the usual places of voting. Thirty days notice shall be given by advertisement in at least two newspapers published in the county, if there be any, at the court house door, and at each of said election precincts. If there be no newspaper published in the county, then the advertisement shall be published in some newspaper, having in the opinion of the commissioners, the widest circulation in the county. The advertisement shall contain a copy of this act, as well as the amount proposed to be subscribed by the commissioners, and the amount of bonds or other evidences of debt proposed to be issued. Those approving the proposition shall deposit in the ballot-box, ballots with the printed or written word "approved," and if a majority of said voters shall vote "approved," they shall be deemed to ratify and approve the subscription and debt proposed to be made and the tax proposed to be levied.

SEC. 6. The commissioners of any county proposing to subscribe for stock as aforesaid, shall have authority to take all measures consistent with this and the laws of the State for registration of voters, holding the election, and returns of the result of the same, and if said subscription be approved, they shall have power to take all measures proper for carrying the same into effect.

SEC. 7. The Chatham Railroad Company shall have power to receive subscriptions to its capital stock, payable in real or personal property at such valuation as may be agreed on between the company and the subscriber. It shall not be necessary for the wife to join her husband in the conveyance of any right of way or other interest in real estate of the husband, for any purpose, to said company, in order to pass her right of dower or other marital rights therein.

SEC. 8. The said Company shall have power to take all such securities and mortgages of real and personal estate as it may deem proper to secure the faithful performance of contracts for the construction and repair of said road, and the buildings and other things incident thereto.

[Ratified on the 10th day of April, A. D. 1869.

I, Henry J. Menninger, Secretary of State, do hereby certify that the foregoing is a true copy of the original act on file in this office.

(Signed,) H. J. MENNINGER, Secretary of State.

Now, this is to give notice, that a poll will be opened on the first Thursday in August next, at each election precinct in said County, when and where the people of said county may cast their votes for or against the above proposition. Those approving thereof will vote with a ballot on which shall be written or printed the word "approved," and those disapproving thereof shall vote with a ballot on which shall be written or printed the word "disapproved."

VALUABLE LAND FOR SALE

IN THE

COUNTY OF WARREN.

I offer for sale, five hundred and two (502) acres of land, situated in the county of Warren, on Shocco Creek, adjoining the Sulphur Springs. Tract of Col. J. M. Heck, on both sides of the Turnpike Road, leading from the Sulphur Springs to the flourishing Town of Ridgeway, on the Raleigh & Gaston Railroad, and nine miles from the latter place. There is an Overseer's house, three cabins, corn-crib and stables on the premises. About one-fourth (¼) of the tract is in original growth of oak, hickory, &c., one-fifth in second growth pines. The soil is sandy, loam and chocolate—surface undulating—well watered, and about 80 acres of rich bottom land. It yields excellent crops of corn, tobacco, wheat, oats, clover, &c. This is one of the best tracts of land in this section, and will be sold on reasonable terms.

Dr. George Fields, who resides near the land, will take pleasure in showing it to persons wishing to examine it, and is authorized to negotiate for its sale

WATCH LOST—$50 REWARD.

In May, 1865, the writer had stolen from his possession, a Lady's double-case GOLD WATCH, white face, gold hands, "Mt. Vernon" carved on one side, and Washington's Monument on the other. The cap opens by touch of a spring. It is thought to be in the section of country between Norfolk and Weldon.

A reward of $50 will be paid for its delivery to DAILY NEWS Office.

SPECIAL FEATURES AND ADVANTAGES.

1st. No restriction on Residence or Travel.

2d. No extra charge on lives of Females.

3d. Policies incontestable after Five Years

4th. The rates of Interest on the Funds of the Company are higher than those on the Funds of Companies located in other States, thus insuring larger Dividends to Policy Holders.

5th. The Directors and Officers of the Company are prominent NORTH CAROLINIANS, who are KNOWN to be men of INTEGRITY and WORTH.

6th. The Company is established on a solid and permanent basis, steps having been taken to increase the Capital Stock to $500,000.

7th. ALL THE FUNDS OF THE COMPANY ARE INVESTED IN THIS STATE AND CIRCULATED AMONG OUR OWN PEOPLE. This fact should commend the Company, above all others, to North Carolinians. It is well known that hundreds of thousands of Dollars in Life Premeums are annually sent North to enrich Northern Capitalists, thus continually draining our people of immense amounts which should be kept at home. On this ground the friends of this Company confidently appeal to every son of the Old North State, and ask their support for this HOME INSTITUTION, which, while it offers substantially all the advantages of Northern Companies, helps to build up HOME INTERESTS.

MONDAY.....JULY 1, 1872.

SMILE WHENEVER YOU CAN.

When things don't go to suit you,
And the world seems upside down,
Don't waste your time in fretting,
But drive away that frown;
Since life is oft perplexing,
'Tis much the wiser plan
To bear all trials bravely,
And smile whene'er you can.

Why should you dread to-morrow,
And thus despoil to-day?
For when you borrow trouble,
You always have to pay.
It is a good old maxim,
Which should be often preached—
Don't cross the bridge before you,
Until the bridge is reached.

You might be spared much sighing,
If you would keep in mind,
The thought that good and evil
Are always here combined.
There must be something wanting,
And though you roll in wealth,
You may miss from your casket
That precious jewel—health.

And though you're strong and sturdy,
You may have an empty purse;
(And earth has many trials
Which I consider worse!)
But whether joy or sorrow
Fill up your mortal span,
'Twill make your pathway brighter
To smile whene'er you can.

WATSON'S & CLARK'S

HIGH GRADE

Super-Phosphate of Lime.

Composed entirely of the Charleston Bone Phosphate, Sulphuric Acid and Ammonia. Warranted to analyse seven per cent. of Soluble Phosphoric Acid and one per cent. of Ammonia.

We are prepared to offer this reliable and superior Super-phosphate—after a test of more than five years in the cotton growing States of South Carolina, Georgia and Alabama, where its record is second to none other manufactured—not excepting Peruvian Guano and Pure Ground Bone, having a better record for cotton than those—to Planters and Dealers—in any quantity—at any railroad depot in the State, or at the factory, upon satisfactory terms.

Price per ton, delivered at any station on the Raleigh and Gaston Railroad east of Henderson, or on the Wilmington and Weldon road north of Rocky Mount, for cash.

Put up in bags—very stout—for immediate use—or in good barrels—which we recommend as better, owing to the high grade of the article as ordered. Circulars and testimonials furnished upon application. All orders and communications addressed to
